Additional information about CEUs

Continuing Education Units are a nationally recognized standard unit of measurement that has been adopted for post-secondary courses not carrying academic credit. One CEU is awarded for every 10 classroom hours, provided the participant successfully completes the requirements. Permanent CEU records will be maintained by Normandale Community College. You will establish a permanent record of non-credit experiences that may be used to enhance your opportunities for personal and/or professional development.

It is the individuals responsibility to contact the professional organization or board to decide if the content meets the organizations or board's requirements.

Normandale is accredited by the North Central Association of Colleges and Schools. Program accreditations include: American Dental Association, American Dietetic Association, Association of Collegiate Business Schools and Programs, Committee on Allied Health Education, Minnesota Board of Nursing, National Association of Schools of Music, and the National League for Nursing.
